SUMMARY & OBJECTIVE

A highly motivated and passionate computer science engineer with expertise in full stack development, neural networks and ML, interested in joining a dynamic team as a software developer or data scientist.

EDUCATION

B.TECH in Computer Science Engineering, MCKV Institute of Engineering (MAKAUT) (2021-2025)

CGPA: 9.67 (till 7th Semester)

Higher Secondary (WBCHSE), Ramakrishna Mission Vidyapith, Purulia (2019-2021)

Percentage: 89%

EXPERIENCE

Backend Developer Intern

Aug 2024 - Present

Codeclouds

Kolkata

- Developed the backend and all the apis of a live Visitor Management System using PHP and MySQL, designing the workflow, DFD, ER diagrams, and SQL schema. Enabled features such as visitor check-in / check-out with OTP-based verification, profile management, and activity tracking.
- Implemented admin functionalities for log viewing, report generation, and user management. Deployed the system for real-time use, ensuring robust performance and scalability.

AI Intern

Jan 2024 - Feb 2024

ISRO Satellite Center

Bangalore

- Developed an intelligent landing system for Mars missions utilizing deep learning-based terrain classification. Trained a powerful AI model to analyze incoming landing images, identify safe and scientifically valuable landing zones, classify other regions of the image eliminating human intervention and enhancing mission autonomy.
- Independently prepared the training data by annotating and classifying training images. Achieved an accuracy of 86% with 240 training images, demonstrating exceptional data management and model optimization skills.

PROJECTS

Home Utility Service Booking System: ([Link](#))

- Developed a MERN stack home utility service booking system with secure user authentication and session management.
- Enabled service creation and management and advanced search, filter options, integrated payment system with stripe.
- Implemented code with robust backend APIs to handle errors and established secure MongoDB connections.
- Built the frontend using Vite, React, TypeScript, and Tailwind CSS for smooth user interface.
- Performed end-to-end testing using Playwright and deployed the application on Render.

Full Stack Social Media Web-App: ([Link](#))

- Developed high-performance social media platform (login, create & view posts, 5+ features) with Next.js & Tailwind CSS for speed & UI.
- Utilized Supabase for a secure, scalable backend. Achieved faster and smooth UI compared to base platforms.

Flipkart Sales Prediction using Time Series: ([Link](#))

- Built sales forecasting model with Flipkart(e-commerce) dataset using ML (ARIMA, SARIMAX). Improved accuracy by 5% vs. baseline, aiding inventory and marketing optimization.

Event Management Site: ([Link](#))

- Designed an event website (Next Js, Tailwind Css) boosting student engagement by 20%.
- Achieved 160+ student registrations with features like comprehensive event details, registration etc.

SKILLS

Technical Skills	C, C++, React JS, Next JS, Front-end Development(React), JavaScript, Tailwind CSS, api development, mongodb, Node js, sql, AWS, supabase, Typescript, Git, GitHub, VS Code, PHP, Machine Learning, Neural Networks, Python for ML, tensorflow, scikit-learn
Coursework Subjects	Data Structure and Algorithm, Operating System, OOP, Database Management, Networks
Soft Skills	Problem-Solving, Critical Thinking, Leadership, Adaptability

ACHIEVEMENTS

- Finalist in Cognizant Hackathon: Demonstrating innovative application “AI Powered Health Platform”.
- ISRO Recognition: Recommendation letter from Dr. Ritu Karidhal (“Rocket Woman of India”) for AI expertise.
- Solved 500+ DSA problems in Leetcode, gfg and Coding Ninjas.
- Innovative idea presentation, tech-Fest: 3rd place for presenting an AI concept, ‘Brain-Controlled Car’.
- Secured 3rd position in a technical treasure hunt in Tech-fest by displaying exceptional problem-solving skills.

EXTRA-CURRICULAR

- Member of Startup Club of MCKVIE: Technical discussions, brainstorming sessions, organizing tech workshops.
- Risers Club Of MCKVIE: Organizing college events, charity events, social events, editorial team member.
